PROMINENT MAN DEAD.

stport, Me., May 11. Hon. Nocl Bi port Sentiael, died at his home astlevensceinlly and politically sirce 1881, when he began public life and was appointed deputy collector of customs by Hon-Washington Long, also continu ng under Washington Jong, area containing under O.R. Whildden whom he beloced at in 1570 as collector, serving in that capacity continuously until 1887 except a short time that Hop. Willis Hayrook beld the office and upon whose death Mr. Nutt was reappointed. Since retiring Mr. Nutt has been treasurer of the Savings Bank and Water Company, director of the W. C. religion's and has also conducted a large, insurance business. The was a prominent Mason and will be buried Friday with fraternal rites.

No man in Eastport was more rerespected by those with whom he had dealings or whose counsol and advice was more sought after.

ras more rought after. Mr. Nutt has been in poor health for the past year but has been confined to his house but a few weeks. He feaves a wife, three daughters and two sons, all . but one living in this city.

MR. GLADSTONE'S ONE DESIRE SOW

London, Kny 11. A letter written hip a member of Mr. Gludstone's ramily says the gazent has not tert his room

says the parient has not left his room for a fortilght. It add:

"It had been hoped he might have some sense as as enjoyment as the warm weather returned, but the truth is he has talken leave of all portless of the chirth. He is possessed with a sense of departury. His body, indicad soil ask for no roud or any kind. His one desire his foot parce. He has longer three of milet is long or rest with closed eyes, than when the morphila treitment begin to home he has considerable passical stringth he has considerable passical stringth that short message of one or two sentimes, and even this softer an entiret. Whe has seen three or our friends, but he faculty, but are conversabled ourse. Nothing but a farewelly the sains for each of the highest trees.

Republican State Conventor CITY HALL, AUBUS A, Inesday, June 28th, 1998,

J. H. Manier, Chairman. Fron Boyd, Secretary, akusta, Mc., April 25, 803.

Byton Bord. Secretary.

Tether dae motive thought in Rapids, to appreciate Shakesper's property. The comparison of the Arrivola Drain.

A Terrible Drain.

It is estimated that the enthroost of realising the ships in Adalph Derty's woll, but they do not appreciate the poet of realising the ships in Adalph Derty's woll, but they do not appreciate the poet of content will not exceed at few thousand dolars, while the loss sustained by the punish in vessels distroyed or compared will aggregate no. est than six bullion isolater. This affords another illimitation of the wonderful achieven ent secret by the American many. Of course it is not to be expected that the same relative illiparagement in losses will follow in the provisible doubtry must necessary to the wonderful achieven ent secret in large many to the provisible doubtry must necessary to the wonderful achieven ent secret in large many not increased and American multiplicates, Mr. Provised and Moestin.

A New Lot of the content of the provisible doubtry must necessary to the wonderful achieven ent secret in the provisible doubtry must necessary to appreciate the poet of the wonderful achieven ent secret with the same relative in the wonderful achieven ent secret in the provisible doubtry must necessary to appreciate the poet of the wonderful achieven ent secret with a first blow to be expected that the same relative in the wonderful achieven ent secret with a first blow to be expected that the same relative in the wonderful achieven ent secret with a first blow to be expected that the same relative in the same relative in the wonderful achieven ent secret with a first blow to be expected that the same relative per property. The first we do the art in the fluid the provision of the provision of the provision of the first we are suited to the wonderful achieven ent secret with a first blow to be appreciate to property. The first water and the first water and the first we are suited to the at Silby's every afternoon four thanks in the first water and the first w malediately open the eyes of the Span-ish people to the folly o condining a sign in which they are entirely outis ed, but mere bombas will not supif seed, but mere bombas will not supif new ships. It is therefore only a
uestion of a short time before this truth
is loreed home. It appears that the
spanish ships at Michia were entipped
the modern guns as were the land terificultors, but on the American ships the
tunt were handled by upo who know throw the methods the rest with Spain, who can a
tunt were handled by upo who know throw the authority the restrict the

The Roverse pat for country is in 1500 to 1700 for the more part for exciting political departs of states where there are in the part of the states where there are part for exciting political departs of moment and good, it can, hinest governant ment cost in the moment and good is can, hinest governant ment cost in the moment and good in the state of the part of the month is presented to the month of the m this point has recently been afforded mand it in Maine and consequently the by the Springfield Republican. In an Hemogratis Populistic and Prohibitic Isla article published in connection with the present war it said:

The Beauthlean Roy a non-par san

present war it said:

'It is a proud fact for the Spanlard that his flag is seen and krown in overy part of the world. It hight be so of the Augrician, sayo for the fisher draffictions v antiquated laws. " | | | | | | | | | | |

The assertion is so far removed from the fact in this reference to our suppling ha the Boston Journal promptly expes es the ignorance of the college, or his purpose to misstate actual conditions in a comparison of the merchant marine of this country and Spain. The Journal says: Look before you lear, neighbor and thus save yourself from fully. If you had consulted the intistics you would have found that Spa g. with 'free ships," built just five morel and vessels of 9,765 tons in 1897, while the United States, with those, "chaust restrictions" of antiquated laws "butit 88 of 94,898

You would find, moreover, that the imerican merchant marine with a total oninge of 4,700,020-203,645 of this reglatered for foreign voyaging-is the see and largest in the world, while Spain's combined deep sen and con twin fleet on Jan. 1, 1506, had an aggregate tomage of:

That in the present war we have cap! tured 14 prizes to Spain's one does not mean', as you assume, that there are no inerican ships to catch—it inpais that time in the cour Yankee blue-lates are as appetion to the Spanlards in amorprise and right solicited which in Newl York which we color at prices that will neet the approval

TIMELY TO: IGS SLEGESTED BY THE WAR.

The Islands Lawey Took-Chinesa. Not Span ards. Were the Real Masters---Interally esting Facis.

"When Uncle Sam comes to look into When Uncle Sam cames to look late the conditions of government now "extended little billing in the fullifigations Islands with a view to pitering them to suit. Yankee notions, he is ke as to be everlastingly surprised. In this light place, he is going to find that the Chinese are the real masters instead of the ato hamendal Doas, just as they are to any virtually in control of aparly all the islands of Minlaysia. In the recond place, he is going to find that the dissults faction of the revealed in the recond place, he is going to find that the dissults faction of the revealed in the recond glace, he is going to find that the chinese is abroaded as much against these haple Chinese as against the Spanish, and that the chy against cheap Choese he for rings out as width at Minlaysia. In the reconstruction of this post in the striction of this post in the striction of this post in the striction of this post in the master of the facer taken hast continued, "is the most interogenical for the hast of the merse takend was spinning years for the reconstructed, "is the most interogenical for the hast of the merse takend was spinning years for the reconstructed," is the most interogenical for most of them are just the formula of the Pacific and takend to the most post of t

group, and I ylenture to say that not our-haiff of them, have over been under the Spanish yoke.

"The Tagaish who live on the larger distances, it is a superior to the larger distances, it is the superior of the larger distances. If the Lixon and Mindanae, are traiter patiently cook lights. Them causes the Benjamia, who are great isherinen and live on the varier between the islands. They carry on a desaltery sort of commerce and site in reveals, travel from \$1.1 to the population index Spanish, rule, with the Papinans in good second. Varied white and Ecuspenns are libout 400.000 strong, while the Chicage and the half easters of inclus, who have been drifting into the Philippines for ages, unipote, collectively, about 125,000, \$80, 720, see, the Unicasian, Mongolian field contributed a share to the list. The column special paids arrived to the larger of the l

See, the characteristic product of the lateral product of the contributed a share to the lateral product of the contributed a share to the lateral product of the contributed a share to the lateral product of the contributed a share to the lateral product of the contributed a share to the lateral product of the contributed a share to a topic of the contributed a share to the lateral product of the contributed a share to a topic of the contributed as high product of the contributed and higher the contribute to death in first 1 of the contributed and the drawn under the first tree at night and only a sheet. In the marking roll over on your hard, laby your boot up into the tree and down comes breaking. That's their hardsen and contributed and improvide there the Chinese have been pretty but for despitable of the lateral proceed a Chineman. He is active, engable and anecessing in his efforts whom he turns his hand to habey or mechanics. In commerce he is the host assignmentable to the Dons. In real proceeding the processes the mechanics of the, lateral processes the mechanics of the, lateral processes the mechanics of the contribute who goes the collection of the contribute of the contribute of the contribute who are not like to inflict stands, and their faithful offices and the hands and processes they be accorded to the collections and a policy of their own. Oscensibly the same processes they such control to the collections and applied of their own. Oscensibly the same processes they such control in their wide sleeves they such who have never all the number of the product of the control of the product of the control of the control

while sleeves they suick red and succeed at it.

"Inted, deep sed, but wholly onvied by the natives, the Chinese have never sought by the natives, the Chinese have never about the placate their centiles, but bare indial the Spanish Government in mainstaining that Dalroce of belonging interests on which it to Dens relied for the support of the own. Institutions, Thus they have gone on for Years have tening upon the great wealth at the Phillippines, with a large sums to the Spanish rulers for concessions work the Spanish rulers for concessions work the state of loyds, products an labor until could toos the same turbearable even for the crast-gridg tribes, and the re-

tor the cast-golds tribes, and the reboltlors folloyed. The ultimated riumph
of the Insurants would mean the annisindution of the C. there for likely all Malars the initires are suples and linarity
in peace, left purcelenting and urcless
